DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kobler et al in view of Otsuka et al. Kobler shows the claimed invention except that the outside stationary cutters may not be of a foil design. All of the stationary cutters are for cutting short hair. The central cutter is adjustable. The device of Kobler is over 40 years old. Updating it by using new technology such as outer foil blades would be within the skill of an artisan and would be obvious. Such a foil blade is shown by Otsuka.

Allowable Subject Matter

Claims 2-6, 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The remarks have been considered and are pertinent. Accordingly new art has been applied to the claims.
